## Joint Strategic Needs Assessment/Joint Health and Wellbeing Strategy

Delivered by Health and Wellbeing Board. Considers needs of whole population.

Joint commissioning

Local authority/CCG applies JSNA analysis to 0-25 children and young people with SEN and disabilities to agree shared outcomes, working with partners, eg children and young people and Parent Carer Forums.

Local offer

Local authority publishes a Local Offer setting out what support is available for 0-25 year olds with SEN or disabilities.

EHC Plan

An EHC plan starts by focusing on outcomes that are important to the individual. Any education, health or care provision required to meet a child/young person's needs related to SEN must be included in the plan (see Chapter 9).
