

TRANSCRIPT: Maria Mayo, Jack's mother

About Jack

Jack is 13 years old and suffers with numerous disabilities. He has ASD, epilepsy, severe behavioural problems and he's incontinent as well. He's very lively and very demanding. He's a fun loving little boy, very fun loving to be with, but he can have severe temper tantrums. But apart from that, he's a lovely little boy and everybody in the school loves him.
