

## **TRANSCRIPT: What Jade likes**

Jade

Well, my favourite thing to do is listening to music, especially Kesha because she's my favourite singer.

I like going on my trampoline in the garden, I like talking to my friends. Eating..... I do like drama a lot. I do drama club after school.

I like watching films quite a lot, especially action films and I don't like love films, I really don't.

I quite like to play with my dogs, and the cat especially.

I do enjoy playing with my brother and sister but I don't do it very often.

When I get older and leave school I'd like to go to university and I'd like to get a degree in English and acting, and I'd like to either go on to do acting in a career or writing novels. I do write a lot of stories, especially on my computer. I've got this little notebook which I carry everywhere, and if I have a story idea I'll write it down straight away and, if I want to, I'll develop it later.
